A guide to passing the EPA 608 refrigeration exam, including the Core, Type I, Type II, Type III, and universal exams. Also includes practice questions that have been known to be on the test. Setup to be a guide to help HVAC technicians or anyone who needs to pass the EPA 608 refrigeration exam.

Section 608 of the Federal Clean Air Act requires that all persons who maintain, service, repair, or dispose of appliances that contain ozone depleting refrigerants be certified in proper refrigerant handling techniques. These regulations were revised in the fall of 2016 to address HFCs, HFOs, revised allowable leak rates, and expanded record keeping guidelines. The ESCO Institute's EPA Section 608 Certification Program has been revised to incorporate these new regulations. Now in its second release, the ESCO Institute's EPA Section 608 Preparatory 9th Edition V2 Manual covers the material required to successfully pass the Universal Exam in 32 pages.

American Culinary Federation's Guide to Culinary Certification is the essential guide to obtaining the credentials awarded to cooks and chefs, including pastry cooks and chefs, denoting a sophisticated level of industry experience and professional education rigorously evaluated by the American Culinary Federation (ACF). Written by the certifying body of the ACF, this invaluable resource is the only authoritative guide to its certification process. It features clear explanations of specific skills tested at all five certification levels, advice for passing every certification level, and helpful exam-taking tips. American Culinary Federation's Guide to Culinary Certification is the authority on gaining acceptance into the most comprehensive certification program for chefs in the United States. It's a must-have for career-minded cooks and chefs hungry for renown in the industry.
