Writer Rinker Buck looks back more than 30 years to a summer when he and his brother, at ages 15 and 17 respectively, became the youngest duo to fly across America, from New Jersey to California. Having grown up in an aviation family, the two boys bought an old Piper Cub, restored it themselves, and set out on the grand journey. Buck is a great storyteller, and once you get airborne with the boys you find yourself absorbed in a story of adventure and family drama. And Flight of Passage is also an affecting look back to the summer of 1966, when the times seemed much less cynical and adventures much more enjoyable.

CNN Aviation Correspondent Richard Quest offers a gripping and definitive account of the disappearance of Malaysian Airline Flight MH370 in March 2014. On March 8, 2014, Malaysian Airlines Flight MH370 disappeared with barely a trace, carrying 239 people on board--seemingly vanishing into the dark night. The airplane's whereabouts and fate would quickly become one of the biggest aviation mysteries of our time... Richard Quest, CNN's Aviation Correspondent, was one of the leading journalists covering the story. In a coincidence, Quest had interviewed one of the two pilots a few weeks before the disappearance. It is here that he begins his gripping account of those tense weeks in March, presenting a fascinating chronicle of an international search effort, which despite years of searching and tens of millions of dollars spent has failed to find the plane. Quest dissects what happened in the hours following the plane's disappearance and chronicles the days and weeks of searching, which led to nothing but increasing despair. He takes apart the varying responses from authorities and the discrepancies in reports, the wide range of theories, the startling fact that the plane actually turned around and flew in the opposite direction, and what solutions the aviation industry must now implement to ensure it never happens again. What emerges is a riveting chronicle of a tragedy that continues to baffle everyone from aviation experts to satellite engineers to politicians--and which to this day worries the traveling public that it could happen again. INCLUDES PHOTOS

A vital resource for pilots, instructors, and students, from the most trusted source of aeronautic information.

A carefully designed and beautifully illustrated photographic guide to the moths you are most likely to see during the day This concise photographic field guide helps you to identify the day-flying moths most likely to be seen in Great Britain and Ireland. It combines stunning photographs, clear and authoritative text and an easy-to-use design to increase your knowledge and enjoyment of these intriguing and often colourful insects.

Online Library Flight Of Page A True Story Rinker Buck

Like butterflies, some moths fly regularly in sunshine, whereas others that usually fly at night are readily disturbed from their resting places during the day. This guide describes all of these species and features at least one photograph of each in its natural, resting pose. A brief description of each moth covers the key identification features and when and where to look for it, and includes information on its status, life history, special features and caterpillar food plants. Other sections explain how to distinguish moths from butterflies, and also provide essential information on biology, classification, habitats, gardening for moths, conservation and legislation and recording and monitoring. Individual accounts for 158 species and photos of 28 others. More than 320 stunning photos, with every moth shown as you see it. Beautifully designed, easy to use and clearly written.

A USA Today Bestseller Inspired by fascinating, true, yet little-known events during World War II, *The Long Flight Home* is a testament to the power of courage in our darkest hours—a moving, masterfully written story of love and sacrifice. It is September 1940—a year into the war—and as German bombs fall on Britain, fears grow of an impending invasion. Enemy fighter planes blacken the sky around the Epping Forest home of Susan Shepherd and her grandfather, Bertie. After losing her parents to influenza as a child, Susan found comfort in raising homing pigeons with Bertie. All her birds are extraordinary to Susan—loyal, intelligent, beautiful—but none more so than Duchess. Hatched from an egg that Susan incubated in a bowl under her grandfather's desk lamp, Duchess shares a special bond with Susan and an unusual curiosity about the human world. Thousands of miles away in Buxton, Maine, young crop-duster pilot Ollie Evans decides to join Britain's Royal Air Force. His quest brings him to Epping and the National Pigeon Service, where Susan is involved in a new, covert mission to air-drop hundreds of homing pigeons in German-occupied France. Many will not survive. Those that do will bring home crucial information. Soon a friendship between Ollie and Susan deepens, but when his plane is downed behind enemy lines, both know how remote the chances of reunion must be. Yet Duchess will become an unexpected lifeline, relaying messages between Susan and Ollie as war rages on—and proving, at last, that hope is never truly lost. “Hlad adeptly drives home the devastating civilian cost of the war.” —Booklist

Jennifer Fenn's debut novel inspired by true events, about a teenage boy who has stolen—and crashed—not one, but three airplanes. And each time he's walked away unscathed. Who is Robert Jackson Kelly? Is he a juvenile delinquent? A criminal mastermind? A folk hero? One thing is clear: Robert always defies what people think of him. And now, the kid who failed at school, relationships, and almost everything in life, is determined to successfully steal and land a plane. Told as an investigation into Robert's psyche, the narrative includes multiple points of view as well as documentary elements like emails, official records, and interviews with people who knew Robert. Ultimately, *Flight Risk* is a thrilling story about one teenager who is determined to find a moment of transcendence after everyone else has written him off as lost.

As heard on NPR's *This American Life* "Absorbing . . . Though it's non-fiction, *The Feather Thief* contains many of the elements of a classic thriller." --Maureen Corrigan, NPR's *Fresh Air* "One of the most peculiar and memorable true-crime books ever." --Christian Science Monitor A rollicking true-crime adventure and a captivating journey into an underground world of fanatical fly-tiers and plume peddlers, for readers of *The Stranger in the Woods*, *The Lost City of Z*, and *The Orchid Thief*. On a cool June evening in 2009, after performing a concert at London's Royal Academy of Music, twenty-year-old American flautist Edwin Rist boarded a train for a suburban outpost of the British Museum of Natural History. Home to one of the largest ornithological collections in the world, the Tring museum was full of rare bird specimens whose gorgeous feathers were worth staggering amounts of money to the men who shared Edwin's obsession: the Victorian art of salmon fly-tying. Once inside the museum, the champion fly-tier grabbed hundreds of bird skins--some collected 150 years earlier by a contemporary of Darwin's, Alfred Russel Wallace, who'd risked everything to gather them--and escaped into the darkness. Two years later, Kirk Wallace Johnson was waist

Online Library Flight Of Page A True Story Rinker Buck

high in a river in northern New Mexico when his fly-fishing guide told him about the heist. He was soon consumed by the strange case of the feather thief. What would possess a person to steal dead birds? Had Edwin paid the price for his crime? What became of the missing skins? In his search for answers, Johnson was catapulted into a years-long, worldwide investigation. The gripping story of a bizarre and shocking crime, and one man's relentless pursuit of justice, *The Feather Thief* is also a fascinating exploration of obsession, and man's destructive instinct to harvest the beauty of nature.
