Psychology in Action, 12e is a comprehensive introductory Psychology product that fosters active learning and provides a wealth of tools that empower students to master and make connections between the key concepts. Students will leave the classroom with a solid foundation in basic psychology that will serve them in their daily lives no matter what their chosen field of study and career path.

Engage and inspire through active learning with Karen Huffman and new co-author, Katherine Dowdell's Psychology in Action 11th Edition Binder Ready Version, the acknowledged leader of active learning and student success. Designed for introductory psychology courses, this flagship book helps students examine their own personal studying and learning styles with several new pedagogical aids -- encouraging students to apply what they are learning to their everyday lives. Through its welcoming voice, Psychology in Action 11th Edition Binder Ready Version continues to offer a program with ongoing study tips and psychological techniques for mastering the material. This text is an unbound, binder-ready version.

Through four successful editions, this briefer book uses an approach which promotes learning as an "activity" of the reader - it shows how "active learning" can motivate and excite readers to a deeper understanding of introductory psychology. With balanced and modern treatment of gender and culture, this book encourages readers to develop "critical thinking" skills. It is organized around the SQ4R (survey, question, read, recite, review) method of learning.

Engage and Inspire through active learning with Karen Huffman and co-author Katherine Dowdell's Psychology in Action, the acknowledged leader of active learning and student success. Designed for introductory psychology courses, this flagship book's new edition helps students examine their own personal studying and learning styles with several new pedagogical aids -- encouraging students to apply what they are learning to their everyday lives. Through its welcoming voice, Psychology In Action continues to offer a program through the book and media with ongoing study tips and psychological techniques for mastering the material. Additionally, Huffman and Dowdell have created a new Video Tutorial Series explaining and contextualizing over 80 of the most difficult concepts in introductory psychology by using examples and applications not discussed in the text; hands-on demonstrations developed in the author's classroom and "virtual field trips" in which students see psychology in real world settings. Psychology in Action is available in alternate versions (eBooks and custom) for professors and students. For more information, visit the "Instructor's Resource" tab or "Student Resource" tab below. Access to WileyPLUS Learning Space sold separately. This text is an unbound, three hole punched version.

Psychology in Action, 12e is a comprehensive introductory Psychology product that fosters active learning and provides a wealth of tools that empower students to master and make connections between the key concepts. Students will leave the classroom with a solid foundation in basic psychology that will serve them in their daily lives no matter what their chosen field of study and career path.

Provides coverage of gender and cultural diversity. This book includes support material including crossword puzzles, matching exercises, and fill in the blank exercises following each modular. It features spiral bound workbook format.

Covering all the major concepts and theories while still presenting the exciting and practical applications of psychology is a challenge. In order to meet this challenge, Huffman presents a fully integrated package that sets the stage for a perfectly choreographed learning experience. It includes a pedagogical system that makes psychology easier to learn. Readers will also find a robust suite of multimedia learning resources, including animations, interactive exercises, simulations and virtual experiments, and brief video clips. Psychologists can use the ninth edition as a reference for the theories and concepts.

Real World Psychology, a brief version of Huffman's Psychology in Action, reflects Huffman's core "student/active classroom" philosophy and is designed specifically for the unique needs of those who demand big things from a small package. This text ties every single concept to a real-world, in-text example by utilizing case studies, photos, graphs, news stories and charts. This brief approach allows readers to grasp the "big picture" in psychology without an abundance of supplementary details.
