This is a gender-swapped Sherlock Holmes inspired story set in De Bodard's Xuya universe. "Holmes" is a scholar who requires drug treatment for a medical condition, and the "Tea Master" (Watson analogue) is a shell-shocked mindship who brews special teas so its passengers can survive the mind-destroying effects of FTL space travel.

The Tea Master and the Detective is my first experience of Aliette de Bodard's fiction. A novella set in her Xuya universe, it's a quick and engaging murder mystery set in a unique and imaginatively realized science fiction setting. There is a lot to love about this story, and I'll definitely be reading more of de Bodard's work in the future.

The Tea Master and the Detective by Aliette de Bodard is a futuristic take on the Sherlock Holmes archetype featuring a mysterious female scholar and thoughtful shipmind. How to properly explain the bounty of imagination enclosed within the pages of Aliette de Bodard's latest novella? It is, above all, a detective story inspired by the immortal tales of Sherlock Holmes but with several defining twists.

The Shadow's Child is a living mindship that was discharged from military transport service after an injury and now makes a living brewing mind-altering teas to help space travelers. When abrasive and eccentric scholar Long Chau requests a corpse from space for scientific study, the ship accepts the odd assignment. When the body she brings back turns out to have been murdered, Long Chau feels compelled to investigate, dragging The Shadow Child with her.

Winner of the 2018 Nebula Award for Best Novella Finalist for the Hugo Award for Best Novella “A window onto a beautifully developed world that widens the meaning of space opera.” —New York Times Once, the mindship known as The Shadow's Child was a military transport. Once, she leapt effortlessly between stars and planets, carrying troops and crew for a war that tore the Empire apart. Until an ambush killed her crew and left her wounded and broken. Now the war is over, and The Shadow's Child, surviving against all odds, has run away. Discharged and struggling to make a living, she has no plans to go back into space. Until the abrasive and arrogant scholar Long Chau comes to see her. Long Chau wants to retrieve a corpse for her scientific studies: a simple enough, well-paid assignment. But when the corpse they find turns out to have been murdered, the simple assignment becomes a vast and tangled investigation, inexorably leading back to the past--and, once again, to that unbearable void where The Shadow's Child almost lost both sanity and life... “[The Tea Master and the Detective] is a window onto a beautifully developed world that widens the meaning of space opera, one that centers on Chinese and Vietnamese cultures and customs instead of Western military conventions, and is all the more welcome for it.” —Amal El-Mohtar, New York Times “The Tea Master and the Detective is the Sherlock Holmes retelling I always

wanted and now I have it. And I want so much more of it.” –Ana Grilo, Kirkus “The Tea Master is an astonishing Holmesian mystery, in which Holmes is a woman and Watson is a spaceship. It is everything I wanted it to be. Tea, space, and mysteries within mysteries.” –Mary Robinette Kowal “Ingenious... As a classical blend of far-future SF and traditional murder mystery, The Tea Master and the Detective should satisfy readers unfamiliar with the Xuya universe, but at the same time it’s an intriguing introduction to that universe, much of which seems to lie just outside the borders of this entertaining tale.” –Gary K. Wolfe, Locus “De Bodard constructs a convincingly gritty setting and a pair of unique characters with provocative histories and compelling motivations. The story works as well as both science fiction and murder mystery, exploring a future where pride, guilt, and mercy are not solely the province of humans.” –Publishers’ Weekly

Chado the Way of Tea: A Japanese Tea Master's Almanac is a translation of the Japanese classic Sado-saijiki, first published in 1960. Covering tea-related events in Japan throughout the year, Master Sasaki provides vignettes of festivals and formal occasions, and as well as the traditional contemplative poetry that is a part of the tea ceremony. Each chapter covers variations in the tea ceremony appropriate for a single month, including: Themes and sentiments—tea gatherings at night, under the moon, on snowy days, and many others. Special events—describing major tea festivals such as Hinamatsuri and yasurai-matsuri. Flowers with tea—a list of 250 flowers, divided by season with an explanation of how they are incorporated into the tea ceremony. Cakes—descriptions and ingredients of moist and dry cakes and toffees used in the tea ceremony. Meals for tea—the meal, kaiseki, accounts for almost a third of any formal tea ceremony. This section includes at least two proven menus for each month. Words—seasonal words, poetic names for utensils, and nature words used in the tea ceremony. The book also includes reproductions of almost 100 Japanese paintings produced by the famous tea practitioner Hara Sankei, with over 1,000 Japanese poems, and a glossary of over 500 specialized terms related to the tea ceremony.

Soshitsu Sen is the 15th Grand Master of the Urasenke school of Chado, or the Way of Tea, and a cultural leader both in Japan and around the world. This text focuses on Sen's life, beginning with his education, through the war and postwar years into the present.

An amazing, award-winning speculative fiction debut novel by a major new talent, in the vein of Ursula K. Le Guin. Global warming has changed the world’s geography and its politics. Wars are waged over water, and China rules Europe, including the Scandinavian Union, which is occupied by the power state of New Qian. In this far north place, seventeen-year-old Noria Kaitio is learning to become a tea master

## Read Online The Tea Master And The Detective

like her father, a position that holds great responsibility and great secrets. Tea masters alone know the location of hidden water sources, including the natural spring that Noria's father tends, which once provided water for her whole village. But secrets do not stay hidden forever, and after her father's death the army starts watching their town—and Noria. And as water becomes even scarcer, Noria must choose between safety and striking out, between knowledge and kinship. Imaginative and engaging, lyrical and poignant, *Memory of Water* is an indelible novel that portrays a future that is all too possible.

Written in English by a Japanese scholar in 1906, "*The Book of Tea*" is an elegant attempt to explain the philosophy of the Japanese Tea Ceremony, with its Taoist and Zen Buddhist roots, to a Western audience in clear and simple terms. One of the most widely-read English works about Japan, it had a profound influence on western understanding of East Asian tradition.

A translation of the Japanese classic *Sado-saijiki*, first published in 1960

The material for this book has accumulated over twelve years of active practice in Japan's rite of tea of which the author has received full instructorship; two years of full-time employment at a traditional tea vendor in the heart of Uji, during which he studied for and passed the examination of the Nihoncha Instructor Association and received certification as accredited instructor; regular meetings with, and tea farm visits at the properties of skilled artisan tea manufacturers, encounters that have provided much insight in subjects as the struggles of tea farmers, the reality behind the manufacturing of tea, and the workings of the industry as a whole. In addition, for the past four years, the author has devoted his life to discovering the essence of tea through curating a special selection of tea, repeatedly talking to and interviewing tea manufacturers, gathering insider information about the industry, etc. in order to truthfully and openly make this information available internationally. The discoveries made, and the information gathered during such interactions is what constitutes the foundation for the material presented in this book, and it is with the wish to objectively portray what Japanese tea at its core and in essence is that this book has been brought to life.

Tea lovers know there's nothing better than a cozy to keep a tasty brew piping hot to the very last sip. There's also no better way to prettify a plain pot or cheer up the tea table. The first tea cosy book was so popular that GMC had to make another! The enduring popularity of the tea cosy makes it the ideal gift or the perfect bazaar item - if you can bear to part with it. This new title features fun and fabulous cozies to knit and crochet. Each design is accompanied by clear instructions and charts. These original designs were created by the readers of *Knitting* magazine. Their great eye for design, colour

and nifty skills with needles and hooks are the reason for the brilliantly imaginative variety of tea cozies in this book.

The Ancient Art of Tea is a delightful look at the philosophy, history, and culture of tea in China. The health benefits of tea, from green teas to white, oolong and black teas, are well known in our world today. How to create the perfect, healthy cup of tea is a process few people genuinely understand, making The Ancient Art of Tea a needed guide for tea lovers. Making a perfect cup of tea is a dynamic process that requires the right environment, clear spring water, a suitable fire to boil water, skill in steeping tea, and deep understanding of tea connoisseurship. From a variety of ancient tea books comes a broader perspective and deeper insight into the topics that surround the tea drinking experience. The ancient Chinese held tea and the various types of tea in high regard for its medicinal and rejuvenating properties. They prized the teas that grew high in the mountains, in crags and crevices in the rocks. They believed that tea was best brewed with pure, clean, mountain spring water, and that fire should be from clean and natural sources since properly heated water would define the subtle tastes of the tea. Using the proper utensils enhanced the taste and experience of tea drinking. And they believed that where you had your tea, along with the people with whom you shared the experience, all determine the value of the tea. The Ancient Art of Tea contains vital information to assist tea drinkers in their quest for yet another pot of delicious tea. This book teaches the two fundamental secrets to tea as practiced in ancient China—technique and taste. These exemplify some of the basic concepts of the philosophy of tea, which greatly enhances tea enjoyment. Not only an exhaustive source of tea knowledge, The Ancient Art of Tea is also a significant volume in the study of Chinese tea and is sure to become a classic in itself.
