Get Free From Individual Learning To Organizational Learning

In the process of organizational inquiry, the individual will interact with other members of the organization and learning will take place. Learning is therefore a direct product of this interaction. Argyris and Schon emphasize that this interaction often goes well beyond defined organizational rules and procedures.

Organizational Learning Theory - Knowledge Management

Distinguish clearly between individual and organizational learning. Individual learning should be focused on increasing knowledge and skills to do a better job while organizational learning should be about 'solving problems on the organization's behalf' (which doesn't necessarily lead to learning, so perhaps we should call it 'organizational problem-solving' instead).
